

# CHANGE JUST ONE *life*

2018 ANNUAL REPORT

partners for care

# CHANGE JUST ONE *life*

When Partners for Care first began working in Kenya, we had no idea the impact the organization might have, and we knew we couldn't help everyone. So in the beginning our goal every day was to "change just one life." Eleven years later, PFC has changed the lives of literally thousands of people through our programs and staff on the ground.

Of course, none of this would be possible without the steadfast support of our donors who faithfully pray, give, and share the work of PFC with others. We are blessed that our donors embrace the concept to "do for one what we wish we could do for everyone."

The support of our donors (whom we call development partners) has enabled our staff in Kenya to reach over a million people with the life-saving message of HIV/AIDS prevention. Because of the generosity of our donors, 50,000 people have received water backpacks, providing safe water to children in schools and households; over 8,000 have been given bed nets to protect against malaria. Hundreds of people can now read, write, sew, and use computers greatly enhancing their ability to find jobs and feed their families. Mobility carts have been given to hundreds of physically challenged children and adults who no longer have to crawl on the ground. And many have heard the gospel and accepted Christ into their lives.

Partners for Care thanks all of our donors for partnering with us to "change just one life."

## SAMMY WANJAU *Director*

With every passing year, I am more grateful for our donors and more amazed at what we can achieve together. Working for Partners for Care has reminded me that changing even one life positively impacts many others. Educating a mom or dad through literacy or computer school brings hope to the family. A mobility cart for a physically challenged adult or child paves the way for them to attend school or church, start a small business, and positively contribute to their local community.

Providing safe water with a water backpack to just one person can improve the health of the family, a classroom, or an entire community.

Thank you to all our wonderful donors and partners for being on this journey with Partners for Care.

Isn't it amazing that "changing just one life" can ultimately change the world?

*Sammy*

# 2018 ORGANIZATIONAL ACCOMPLISHMENTS

9,300 Water Backpacks Distributed to Schools & Households

1,000 Bed Nets Distributed

984 Accepted Christ

960 Mobility Carts Distributed

618 People Educated in Computer & Literacy Schools
