

MORE THAN A *Story*

Because every story matters

CLEAN WATER IS LIFE IN THE DESERT

“Partners For Care continues with the support of helping Muthee and Parkishon Villages with water. The current water shortage in the whole county of Marsabit is painful - hitting the community so hard.

Hundreds of villagers with almost 1000 empty Jericans and their donkeys, surrounding the tanks, anxiously waiting for their turn to get water. This shows how harsh and hard it is for the community to get water.”

MORE THAN A *Story*

Continued . . .

“The old, young, and mothers in the scorching hot sun wait patiently for their turn to get at least four twenty liter jerricans of water for cleaning and cooking - and one WaterSafe pack filled with clean, safe water for drinking.

The village elders express their sincere gratitude to Partners For Care for standing with them throughout the year from January to today.

With the heart full of joy and tears, I also send my special gratitude to our donors who supported this life-saving project.”

Blessed!

~ Kano Daro - PFC Marsabit Director
